

CONSERVATION MEASURE 96/XIV
Precautionary TAC for *Electrona carlsbergi*
in Statistical Subarea 48.3 for the 1995/96 Season

This Conservation Measure is adopted in accordance with Conservation Measure 7/V:

1. For the purposes of this Conservation Measure the fishing season for *Electrona carlsbergi* is defined as the period from 4 November 1995 to the end of the Commission meeting in 1996.
2. The total catch of *Electrona carlsbergi* in the 1995/96 season shall not exceed 109 000 tonnes in Statistical Subarea 48.3.
3. In addition, the total catch of *Electrona carlsbergi* in the 1995/96 season shall not exceed 14 500 tonnes in the Shag Rocks region, defined as the area bounded by 52°30'S, 40°W; 52°30'S, 44°W; 54°30'S, 40°W and 54°30'S, 44°W.
4. In the event that the catch of *Electrona carlsbergi* is expected to exceed 20 000 tonnes in the 1995/96 season, a survey of stock biomass and age structure shall be conducted during that season by the principal fishing nations involved. A full report of this survey including data on stock biomass (specifically including area surveyed, survey design and density estimates), age structure and the biological characteristics of the by-catch shall be made available in advance for discussion at the 1996 meeting of the Working Group on Fish Stock Assessment.
5. The directed fishery for *Electrona carlsbergi* in Statistical Subarea 48.3 shall close if the by-catch of any of the species named in Conservation Measure 95/XIV reaches its by-catch limit or if the total catch of *Electrona carlsbergi* reaches 109 000 tonnes, whichever comes first.
6. The directed fishery for *Electrona carlsbergi* in the Shag Rocks region shall close if the by-catch of any of the species named in Conservation Measure 95/XIV reaches its by-catch limit or if the total catch of *Electrona carlsbergi* reaches 14 500 tonnes, whichever comes first.
7. If, in the course of the directed fishery for *Electrona carlsbergi*, the catch of any one haul of any species other than the target species exceeds 5%, the fishing vessel shall move to another fishing location not closer than 5 n miles distant¹. The fishing vessel shall not fish within 5 n miles of the location in which the catch of species, other than the target species, exceeded 5%, for a period of at least five days².
8. For the purpose of implementing this Conservation Measure:
 - (i) the Catch Reporting System set out in Conservation Measure 40/X shall apply in the 1995/96 season; and
 - (ii) the Monthly Effort and Biological Data Reporting System set out in Conservation Measure 52/XI shall also apply in the 1995/96 season. For the purposes of Conservation Measure 52/XI, the target species is *Electrona carlsbergi*, and 'by-catch species' are defined as any cephalopod, crustacean or fish species other than *Electrona carlsbergi*. For the purposes of paragraph 6(ii) of Conservation Measure 52/XI a representative sample shall be a minimum of 500 fish.

¹ This provision is adopted pending the adoption of a more appropriate definition of a fishing ground by the Commission.

² The specified period is adopted in accordance with the reporting period specified in Conservation Measure 51/XII, pending the adoption of a more appropriate period by the Commission.
